By Jeannette Guerrasio : Remediation of the Struggling Medical Learner special article disciplinary action by medical boards and prior behavior in medical school maxine a papadakis md arianne teherani phd school struggles schedule a consultation with dr richard selznick director of the cooper learning center and author of the shut down

learner and school struggles Remediation of the Struggling Medical Learner:

1 of 1 review helpful Great resource By Jane Rosenthal This book is a must for anyone who works with struggling medical students and would also be helpful for residency program directors for working with struggling students though there would be some sharp differences because of the employer employee relationship This book really does a great job of breaking down some of the difficulties these learners may be experiencing In this well organized insightful and practical book Jeannette Guerrasio MD generously shares her experience working with underperforming medical learners Weaving real life examples of struggling learners with genuine faculty reactions the author creates guidelines for identifying these learners diagnosing their specific difficulties and remediating their deficiencies The experts agree that Remediation of the Struggling Medical Learner will benefit those who te
