3 of 3 review helpful So sexist By Adrienne Tremain This book uses masculine as generic throughout and says REALLY problematic things about rape I wish I had rented instead of bought this Other than these problems it was

really boring and not very well written It described the absolute basics of how to design lesson plans and definitely did not contribute any more to my understanding of health education than Google could The skills necessary to plan and deliver efficient health education programs are fundamentally the same whether it is in a classroom workplace hospital or community Health Education Creating Strategies for School Community Health Third Edition provides the tools to make appropriate programming decisions based on the needs of the clients and the educational settings It encourages the systematic development of sound effective and appropriate presentation methods
