This book describes the variety of interprofessional education IPE programs in both didactic and clinical settings and how librarians are partnering to further the success of these programs and expand the notion of "interprofessional" beyond the typical health professions. Chapters describe library involvement in planning, development, design, and evaluation of their institutions in the education of a variety of healthcare professionals. Librarians and medical educators will be well positioned to lead the future of IPE with the tools presented in this book. Current and experienced IPE instructors could also benefit from reviewing assessment and evaluation methods, learning how othe
