By Hyacinth C. Martin : Clinical Decision Making: Case Studies in Pharmacology clinical trials are experiments or observations done in clinical research such prospective biomedical or behavioral research studies on human participants are perspective shared decision making the pinnacle of patient centered care michael j barry md and susan edgman levitan pa n engl j med 2012; 366780 781 Clinical Decision Making: Case Studies in Pharmacology:

2 of 2 review helpful Helpful but didn't hold my interest By D I bought this book for an pharmacology course for nursing school so it was required for me to buy it This book highlights tons case studies and it prepares you to think critically on how to take care of patients The context was a bit dry however it was definitely useful 0 of 0 review

helpful Four Stars By Eu Clinical Decision Making Case Studies in Pharmacology is a systematic application based resource for users to develop their nursing knowledge in clinical situations This book contains 40 pharmacology case histories and questions based on real life client situations which make learning easier and more memorable than textbook discussion Current review of literature indicates that many users believe that case study in pharmacology enhances learning and improves exam Part 1 The Digestive and Urinary Systems Case Study 1 Cyanocobalamin Vitamin B12 Deficiency Anemia Pernicious Anemia Case Study 2 Renal Calculi Case Study 3 Stage IIC Cancer of the Prostate Case Study 4 Ulcerative Colitis Case Study 5 Acute Renal Failure Ca
