**By Nicki L. Potts, Barbara L Mandleco : Pediatric Nursing: Caring for Children and Their Families (Better Solution for your Combo Course...)** 101 reasons to breastfeed your child by leslie burby the american academy of pediatrics recommends breastfeeding according to the aap quot;human milk is species there are always eyebrow raising things people say to those with cancer andor their families maybe not everyone would find each of the comments listed below Pediatric Nursing: Caring for Children and Their Families (Better Solution for your Combo

Course...):

2 of 2 review helpful Not Worth the Money By nursingstudent I bought this book because it was a required book for my pediatric nursing class I wish I had only bought the Reviews and Rationales Child Health Nursing book by Hogan and saved my money by not buying this book though The information is not well organized and it s hard to find information that is actually beneficial for learning how to begin caring for pediater PEDIATRIC NURSING CARING FOR CHILDREN AND THEIR FAMILIES third edition offers a dynamic and insightful guide to caring for pediatric clients The authors embrace a holistic family centered approach to the care and nurturing of children in all states of health exploring healthy growth and development milestones as well as illness states and chronic conditions All nursing care is framed within a family context underscoring the importance of viewing children not jus I felt the content was well updated with many new references I think the chapters were very well written With the great depth the research highlights and case studies I believe the texts does an excellent job promoting critical thinking I especially like
