0 of 0 review helpful Very Useful By Sheila Flucke Loved these cards They are well laid out and sturdy I left them in various places around the house and would just pick them up and answer a few whenever I had a chance The question is on the front and the rationale on the back Some of the questions seemed pretty easy but it was a good learning and review tool It came in handy for school also as one of our classes requi This card deck provides more than 300 review questions for the five nursing areas covered on the NCLEX PN fundamentals medical surgical nursing psychiatric mental health nursing maternal neonatal nursing and pediatric nursing plus a comprehensive test of 85 questions in random order Each card has an NCLEX style question on the front and the correct answer and rationale on the back
